

Change of ERP system

Dear customer,

On 7 January 2020, Axess Logistics Sweden AB will switch over to a new enterprise resource planning (ERP) system for both our administrative and production processes.

This process will commence on Thursday 2 January 2020, where we will start taking our current system out of operation and begin the transition over to the new one.

We will send out information to the IT contacts we have registered for your organisation with more details and important times and dates regarding this process. Naturally, we will do our utmost to minimise any risks of this transition causing disruptions for your organisation, but we ask for your understanding in the event that any should occur.

We are confident that our new and modern ERP system will have a positive impact on your organisation and ours.

If you have any questions, please contact Carl-Anders Berntsson by phone on +46 (0)761 25 10 14 or by e-mail at carl-anders.berntsson@axesslogistics.com
